GENERAL INFORMATION

1. SPECIAL DIALING INSTRUCTIONS

a. To dial out of any of the MSC telephone systems - dial number "9", wait until you hear the city exchange dial tone, then dial number desired. When calling from the Petroleum Center just pick up the telephone, the operator will automatically connect you with an outside line. To call from one extension to another in the Petroleum Center it is necessary to flash the operator. Calls from one unit to another will be treated the same as outside calls.

b. To call an MSC station, not located in the same building in which you are initiating call, dial number "8" and then the desired number listed in this directory. (EXCEPTION: Ellington AFB and Houston Petroleum Center).

c. MSC facilities located on Ellington AFB may be reached by dialing HU 7-1400 and asking the Ellington operator for the number desired. MSC facilities located in the HPC building may be reached by dialing WA 8-5711 or WA 8-2741 and asking the operator for the number desired.

d. To report additions, deletions or corrections to this directory call extension 5327.

2. LONG DISTANCE CALLS

a. Persons initiating long distance calls are requested to follow procedures outlined below.

(1) Calls placed from an MSC facility will be placed through the MSC Operator rather than the Houston Toll Operator.

(2) The person initiating call will give the MSC Operator the following information:

- (a) Name of person placing call.
- (b) Extension number from which call is being placed.
- (c) Name of person or organization being called.
- (d) Number and extension of person or organization being called.

(3) Long Distance calls originating when the switchboard is closed will be charged to the originators' building telephone number. Operator is to be instructed to quote time and charges to the MSC Operator on the next work day. Originator will also report the call to the MSC Operator.

b. At the time of publication of this directory, 8 lease long line circuits are available. These long lines appear only on the MSC Headquarters switchboard located in the Farnsworth Chambers building and terminate at: McDonnell Aircraft, St. Louis, Mo. (1); Langley AFB, Va. (3); Cape Canaveral, Fla. (2); NASA Headquarters, Washington, D. C. (2); and Western Operations Office, Santa Monica, Cal. (1). Additional lines will be installed at a later date. ALL PERSONNEL are reminded that these lease circuits are to be used FOR OFFICIAL BUSINESS ONLY. Further consideration should be given to the need of making toll or "long line" calls, e. g. when information to be gained from such calls is not of an immediate or pressing nature, teletype or letter mail should be used.

c. Long line calls initiated from MSC facilities other than the Farnsworth Chambers facility must be periodically monitored by the operator to determine if a disconnect has been made due to the nature of the patch at the headquarters switchboard.

d. Operation of switchboards by other than authorized personnel is strictly forbidden.
