TIMELY TELEPHONE TIPS

Always speak directly into transmitter; speak distinctly and naturally.

WHEN YOU MAKE A CALL. . .

Listen for dial tone.

Dial carefully; don't accelerate dial return.

Allow about 10 rings for station to answer before hanging up.

Always apologize if you get a wrong number. Do not hang up without speaking.

Have your thoughts in order and be ready to carry on an effective conversation.

Identify yourself (and your office, if necessary) to the person answering.

Complete your business on one call if possible.

Keep your conversation brief and businesslike.

Volunteer your extension and the best time to call back, or ask for the best time for you to call if an additional call is necessary.

WHEN YOU RECEIVE A CALL. .

Answer promptly—before second ring, if possible.

Identify yourself immediately by giving your office and your name, or your name only.

Never answer with "Just a moment please," apologize and arrange for a return call, if necessary.

If necessary to ascertain the caller's name, inquire tactfully "May I ask who is calling, please."

Volunteer the "whereabouts and whenabouts" of an absent person if possible. Offer your own assistance.

Explain the necessity for off line delays. Always thank the person for waiting.

Take messages willingly and in detail. Write it down.

TRANSFERRING CALLS. . .

Don't transfer a call if someone in the office can handle it.

Inform the caller of the proper person's name and telephone number before transferring a call.

If you do not know to whom the call should be transferred, offer to find out and have that office call him.

COMPLETING CALLS. . .

End conversation courteously by saying "good-bye," "thank you," or some other suitable phrase.

The caller generally ends a conversation.

Replace the receiver gently. Make no side remarks until connection is broken.

When away from your office, leave information as to when you will return or where you can be reached.
